

LOPOLIGHT
NAVY & SAR SERIES

Lopolight LED Navigation lights Special NAVY & SAR versions

Commercial-grade Lopolight LED navigation lights have been a worldwide success in the most demanding applications on commercial and leisure vessels for more than 10 years.

More than 100.000 Lopolight LED navigation lights have been sold, with the added benefit of no maintenance and solid after-sale support from distributors in more than 30 countries.

Lopolight LED lights are built to last 50,000 hours, using high-quality materials and construction. The lights are waterproof to IP68 and some are even installed on submarines.

Lopolight's Multi-LED design ensures redundancy in each light.

Lopolight offers 5 years warranty supported by a Global Service Network

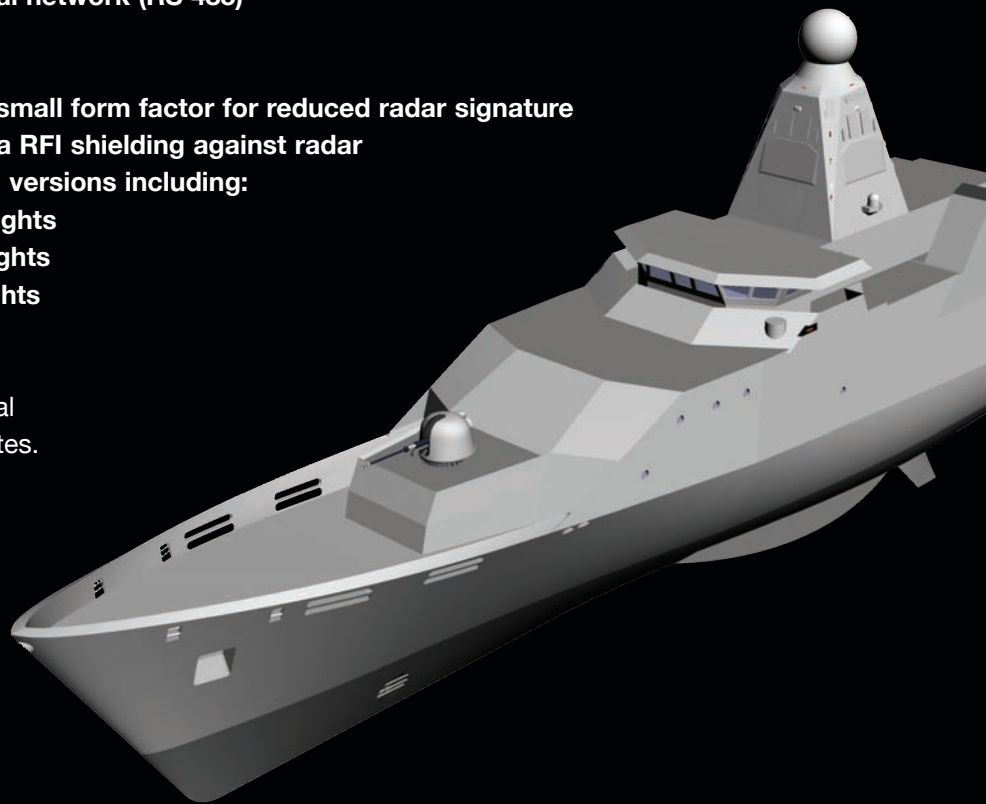

Lopolight has MED "Wheelmark" approval and conform to all worldwide standards for navigation lights – such as UL-1104, IEC 14744, IEC 60945 & MIL-STD 461F

For Navy and SAR applications we offer a further advancement: Lopolight LED Navigation lights that address the unique challenges of NAVY and SAR vessels.

Navy & SAR Lopolight versions are:

- **Dimmable in 11 steps**
- **Controlled over a serial network (RS 485)**
- **NVIS/NVG friendly**
- **Easy to install**
- **Designed with a very small form factor for reduced radar signature**
- **Signal lights with extra RFI shielding against radar**
- **Available in all special versions including:**
 - **IR follow-me lights**
 - **Blue convoy lights**
 - **Blue strobe lights**

Lopolights are installed on several Navy vessels from RIB's to Frigates.
